The Dr. Oz 7 Day Detox Diet is grounded in the belief that our bodies accumulate toxins from the environment, processed foods, and stress. These toxins can lead to weight gain, fatigue, and other health issues. The detox diet aims to reset the body through a combination of dietary changes, hydration, and physical activity. - Lean proteins such as chicken, fish, and legumes
- Healthy fats from sources like avocados and nuts

3. Hydration

Staying hydrated is a crucial aspect of the detox diet. Dr. Oz recommends drinking plenty of water throughout the day, along with herbal teas and detoxifying drinks made from ingredients like lemon, ginger, and green tea.
