The poem reflects the tensions and misunderstandings between the British colonizers and the colonized peoples of the East. - Individualism in the West: Conversely, Western societies celebrate personal freedom and autonomy. Individual achievements and rights are often seen as paramount, leading to a more self-centered approach to life.

4. Communication Styles

- Indirect Communication in the East: Many Eastern cultures favor indirect communication, relying on context and non-verbal cues. This can lead to misunderstandings for those accustomed to direct communication styles.
