2. **Long Battery Life:** With a battery life that lasts for up to 1.5 hours on a single charge, the Ember Mug is designed for those who are always on the move.
3. **Smart App Integration:** The mug connects to the Ember app via Bluetooth, allowing you to customize settings, monitor temperature, and manage battery life.
4. **Sleek Design:** The Ember Mug features a modern look, making it a stylish addition to any kitchen or office environment.
5. **Self-Heating:** The mug heats your drink to the desired temperature and maintains it, so you can enjoy your beverage at the perfect temperature for longer.

Getting Started

To get started with your Ember Mug, follow these steps to unpack, charge, and set up the device.

Unboxing Your Ember Mug

When you first receive your Ember Mug, carefully unbox the product. The package typically includes:

- Ember Mug
- Charging coaster

- User manual
- Quick-start guide

Ensure all components are present before proceeding to charge the mug.

Charging Your Ember Mug

1. Place the Mug on the Charging Coaster: Position your Ember Mug on the included charging coaster, ensuring that the base of the mug is in contact with the coaster.
2. Connect to Power: Plug the charging coaster into a power source using the provided USB cable.
3. Charging Indicator: Once properly connected, the mug will vibrate slightly to indicate it is charging. A red LED light will appear, indicating the charging status.

It is advisable to fully charge your Ember Mug before the first use to ensure optimal performance.

Downloading the Ember App

To utilize the full potential of your Ember Mug, download the Ember app, available for both iOS and Android devices.

1. Visit the App Store or Google Play Store: Search for "Ember" and download the app.
2. Create an Account: Upon opening the app for the first time, you will be prompted to create a user account or log in if you already have one.
3. Connect the Mug: Follow the in-app instructions to connect your Ember Mug to your smartphone via Bluetooth.

Once connected, you can customize your mug settings and monitor its temperature directly from your device.

Using Your Ember Mug

Now that your Ember Mug is set up, it's time to explore its functionalities.

Setting the Temperature

To set your desired drinking temperature, follow these steps:

1. Fill the Mug: Pour your favorite beverage into the Ember Mug.
2. Open the Ember App: Launch the Ember app on your smartphone.
3. Adjust Temperature: Use the slider in the app to set your preferred temperature. The mug will begin heating the beverage to the selected temperature.

You can also set a temperature directly on the mug itself by tapping the temperature control button

located on the bottom of the mug.

Maintaining Temperature

The Ember Mug will maintain the temperature of your drink until you finish it or the battery runs low. You can check the remaining battery life in the Ember app, ensuring you're never caught off guard.

Using the Ember Mug Without the App

While the Ember app enhances your experience, you can still use the mug without it. Simply tap the button on the bottom of the mug to turn it on, set a default temperature, and enjoy your beverage. The mug will maintain the set temperature until it is turned off or the battery is depleted.

Cleaning and Maintenance

Proper care and maintenance will ensure the longevity of your Ember Mug and keep it functioning optimally.

Cleaning Your Ember Mug

1. Hand Wash Only: The Ember Mug is not dishwasher safe. Clean it by hand using warm, soapy water and a soft sponge.
2. Avoid Submerging: Do not submerge the mug in water or place it under running water, as this can damage the internal components.
3. Cleaning the Charging Coaster: Wipe the charging coaster with a damp cloth to remove any spills or stains. Ensure it is dry before reconnecting to power.

Storing Your Ember Mug

When not in use, store your Ember Mug in a cool, dry place. Avoid exposing it to extreme temperatures or direct sunlight, which could damage the battery or the mug's exterior.

Battery Maintenance

To maintain battery health, follow these tips:

- Charge the mug regularly, especially if it has not been used for an extended period.
- Avoid letting the battery completely drain before recharging.

- If the mug is not used frequently, consider charging it once every few months to keep the battery active.

Troubleshooting Common Issues

Despite the Ember Mug's high-quality design, you may encounter some common issues. Here are a few troubleshooting tips:

Connection Issues

- Ensure Bluetooth is Enabled: Make sure Bluetooth is turned on in your smartphone settings.
- Restart the App: Close and reopen the Ember app, then try reconnecting the mug.
- Reboot the Mug: Turn off the mug and turn it back on to reset the connection.

Mug Not Heating

1. Check Battery Level: Ensure that the battery is charged.
2. Temperature Setting: Confirm that the temperature setting is above the current temperature of the beverage.
3. Connection Status: Verify that the mug is connected to the Ember app.

General Performance Issues

If you encounter any other issues, refer to the user manual for additional troubleshooting steps or contact Ember customer support for assistance.

Conclusion

The Ember Mug User Manual serves as a comprehensive guide to understanding, using, and maintaining your Ember Mug. By following the steps outlined in this article, you can ensure that your beverage remains at the perfect temperature, enhancing your drinking experience.
