Understanding the Simple Past Tense

The simple past tense is used to describe actions that happened at a specific time in the past. Here are some basic rules and structures associated with the simple past tense:

- Regular Verbs: For most verbs, the simple past is formed by adding -ed to the base form (e.g., 'walk' becomes 'walked').
- Irregular Verbs: These verbs do not follow a set pattern. For example, 'go' becomes 'went', and 'have' becomes 'had'.
- Negative Forms: To create the negative form, use 'did not' (or 'didn't') followed by the base form of the verb (e.g., "I did not see the movie").
- Questions: To form questions, invert the subject and 'did' (e.g., "Did you go to the party?").

Understanding these rules is fundamental for learners to construct sentences correctly in the past tense.
