Step-by-Step Preparation Instructions

Creating Fred Winston Chili is a simple process that yields a robust and flavorful dish. Follow these steps to prepare your chili:

Step 1: Sauté the Vegetables

1. In a large pot or Dutch oven, heat a tablespoon of oil over medium heat.
2. Add the diced onion and bell pepper. Sauté for about 5 minutes until they begin to soften.
3. Stir in the minced garlic and cook for an additional minute until fragrant.

Step 2: Brown the Meat

1. Add the ground meat to the pot. Break it apart with a spatula and cook until browned, about 7-10 minutes.
2. Drain excess fat if necessary, but leave some for flavor.

Step 3: Add the Remaining Ingredients

1. Stir in the diced tomatoes (with juice), kidney beans, black beans, and broth.
2. Add the chili powder, cumin, smoked paprika, oregano, salt, and pepper. Mix well.
3. If using, add Worcestershire sauce, hot sauce, and tomato paste at this stage for additional flavor.

Step 4: Simmer the Chili

1. Bring the mixture to a boil, then reduce the heat to low.
2. Cover the pot and let it simmer for at least 30-45 minutes. If you have more time, letting it simmer for 1-2 hours will deepen the flavors.
3. Stir occasionally to prevent sticking. If the chili becomes too thick, add more broth or water.

Step 5: Taste and Adjust Seasoning

1. Before serving, taste the chili and adjust the seasoning as needed. Add more salt, pepper, or spices to suit your preference.
