Understanding the National Career Readiness Certificate (NCRC)

The NCRC is a certification program developed by ACT, Inc. to help job seekers demonstrate their skills to employers. It is designed to assess an individual's readiness for different job roles by evaluating three core skill areas:

- **Reading for Information:** This assessment measures the capacity to understand and interpret written documents commonly found in the workplace.
- **Locating Information:** This section evaluates the ability to find, interpret, and use information from various visual formats.

Upon completion of the NCRC assessment, candidates receive a certificate that indicates their skill level in each of the three areas on a scale of bronze, silver, gold, or platinum.
