Introduction to Bass Tabs

Bass tabs are a simplified way of notating music specifically for bass guitar. Unlike traditional sheet music, bass tabs use a six-line format that represents the strings of the bass, with numbers indicating which fret to play. This method makes it accessible for players of all skill levels and allows them to learn songs quickly without needing extensive musical training.

The structure of bass tabs is straightforward. The lines represent the following strings:

- 1st line: G (highest string)
- 2nd line: D

- 3rd line: A
- 4th line: E (lowest string)

In bass tabs, the numbers indicate the frets. For example, a "3" on the bottom line represents playing the 3rd fret on the E string (the lowest string), producing a G note. Understanding this notation is critical for learning any song, including "Gimme Three Steps."
