Once you have crafted your speech, the next step is delivering it effectively. Here are some tips to keep in mind:

Rehearse your speech multiple times to become familiar with the content. This will help you feel more confident and comfortable when delivering it. Consider practicing in front of friends or family for constructive feedback.

## **2. Keep It Concise**

Aim for a speech length of 3 to 5 minutes. This keeps the audience engaged and ensures that you convey your message without losing their attention. Focus on the key points and avoid going off on tangents.

## **3. Use a Clear Structure**

Organize your speech with a clear introduction, body, and conclusion. This structure helps the audience follow your thoughts and makes it easier for you to deliver your message.

Engage with your audience by maintaining eye contact. This creates a connection and makes your speech feel more personal. Avoid reading directly from a script; instead, use notes as a guide to keep your delivery natural.
