Introduction to Harriet Jacobs

Harriet Jacobs was born into slavery in 1813 in Edenton, North Carolina. Her life was marked by hardship and the struggle for autonomy, culminating in her escape to freedom. Jacobs' narrative, "Incidents in the Life of a Slave Girl," was published in 1861 and is considered one of the first feminist texts in American literature. Written from the perspective of a female slave, Jacobs reveals the unique challenges faced by women, including the constant threat of sexual violence from slaveholders. This narrative not only serves as a personal account but also as a clarion call for abolition and women's rights.

Background and Historical Context

The backdrop of "Incidents in the Life of a Slave Girl" is critical to understanding the nuances of Harriet Jacobs' experiences. Enslaved women faced a dual burden of labor and sexual exploitation. The institution of slavery was entrenched in American society, especially in the Southern states, where cotton and tobacco plantations thrived on the backs of enslaved laborers.

Jacobs' own experiences were emblematic of the broader plight of enslaved women. She was subjected to the lecherous advances of her master, Dr. Flint, who attempted to coerce her into a sexual relationship.
