Step-by-Step Instructions for Making a Simple

Origami Doll

Let's start by creating a simple origami doll. This design is perfect for beginners and can be customized in various ways.

Step 1: Prepare Your Paper

1. Begin with a square piece of origami paper, colored side up.
2. If you want to create a doll with distinct clothing colors, consider using two sheets of paper, one for the dress and one for the body.

Step 2: Fold the Paper in Half

1. Fold the paper in half diagonally to create a triangle. Make sure the corners are aligned, and press down to create a sharp crease.
2. Unfold the paper back to its original square shape.

Step 3: Create the Body

1. Fold the top corners of the square down to the center crease, creating a triangle at the top.
2. Flip the paper over so the triangle is facing down.
3. Fold the bottom of the square up to where the triangle meets the bottom edge, creating a small rectangle. This will form the doll's body.

Step 4: Form the Arms

1. Take the left and right corners of the rectangle and fold them outwards at a slight angle. These will represent the arms.
2. Optional: You can cut small rectangles from another paper color and glue them to the arms to create sleeves.

Step 5: Create the Head

1. Flip the paper back over to the front side.
2. Fold down the top corner of the triangle slightly to create the head.
3. Use markers to draw facial features, such as eyes, a smile, and hair.

Step 6: Add Final Touches

1. You can decorate the doll's dress with patterns, colors, and even accessories like tiny bows or belts made from paper.
2. If you've used two pieces of paper, you can glue the top part of the dress to the body for a more defined look.
