Understanding the Exam Structure

The Florida General Contractor Exam is divided into two main sections: the Business and Finance section and the Construction Knowledge section. Each section assesses different competencies necessary for a successful contractor.

Business and Finance Section

This section tests your understanding of financial management, project management, and business operations. Topics include budgeting, contracts, and labor laws. A solid grasp of these concepts is essential as they directly impact the profitability and legality of construction projects.

Construction Knowledge Section

The Construction Knowledge section covers technical aspects of construction including building codes, safety regulations, and construction methods. This part of the exam

evaluates your practical knowledge and application of construction principles. Familiarity with Florida's specific regulations is crucial in this section.
