James Perse offers clothing in a variety of sizes, usually ranging from XXS to XXL. Below is a general size chart to give you an idea of what each size corresponds to:

- XXS: 00-0 (Bust 30-31", Waist 22-23", Hips 32-33")

Fit Characteristics

James Perse clothing is designed with a relaxed yet tailored aesthetic, meaning that while the sizes are aligned with standard US measurements, the fit can be slightly looser than other brands. Here are some key considerations:

- Relaxed Fit: Many items, especially T-shirts and sweaters, are designed to be slightly oversized, providing a comfortable and laid-back look.
- Tailored Silhouettes: Dresses and tailored pieces may have a more structured fit, so it's essential to refer to specific garment measurements.
- Fabric Stretch: The materials used in James Perse clothing often include a percentage of cotton and spandex, which can affect how the garment fits after wear.

How to Measure Yourself

To ensure you select the right size according to the James Perse size guide, you should take accurate measurements. Here's a step-by-step guide:

Step-by-Step Measurement Guide

1. Bust: Measure around the fullest part of your bust while keeping the tape parallel to the ground.
2. Waist: Measure around the narrowest part of your waist, typically just above your belly button.
3. Hips: Measure around the widest part of your hips, ensuring the tape is level.
4. Inseam (for pants): Measure from the top of your inner thigh to your ankle.

Choosing the Right Size: Tips and Tricks

Finding the right size can be tricky, especially when shopping online. Here are some practical tips to help ensure a perfect fit:

1. Consult the Size Guide

Always refer to the James Perse size guide available on their official website or at the retailer. This guide will provide specific measurements for each garment type.

2. Read Product Descriptions

Pay attention to product descriptions. They often include details about fit and fabric, which can help you make a more informed choice.

3. Look for Customer Reviews

Customer reviews can provide valuable insights into sizing and fit. Look for comments about whether

an item runs large or small compared to the size guide.

4. Consider the Style

Different styles may fit differently. For example, a fitted dress will require a different size than a relaxed hoodie. Make sure to consider the intended style when selecting your size.

5. Check Return Policies

If you're shopping online, check the return policy in case you need to exchange for a different size. Many retailers offer free returns, making it easier to find the right fit.

Popular James Perse Clothing Items and Sizing Considerations

Certain pieces are staples in the James Perse collection and are worth discussing in terms of sizing. Here's a brief overview:

T-Shirts

James Perse T-shirts typically have a relaxed fit. If you prefer a more fitted look, consider sizing down.

Dresses

Dresses often have a tailored cut. It's advisable to measure your bust and waist carefully before

selecting a size, as some dresses may have less stretch.

Pants

For pants, consider the inseam measurement in addition to waist size. If you are between sizes, think about the fabric—if it has stretch, you might opt for the smaller size.

Outerwear

James Perse outerwear tends to be more fitted. If you plan to layer underneath, consider sizing up for comfort.
