Key Ingredients for Jamie Oliver's Meat Pie

To create a delicious meat pie, you'll need the following key ingredients:

- **Meat:** Traditionally, beef or lamb are used, but you can also experiment with chicken or pork.
- **Vegetables:** Onions, carrots, and celery form a classic mirepoix, while mushrooms can add depth of flavor.
- **Herbs and Spices:** Fresh herbs like thyme and rosemary, along with salt and pepper, enhance the taste of the filling.
- **Stock:** Beef or chicken stock provides moisture and richness to the filling.
- **Pastry:** A buttery shortcrust pastry is ideal for creating a flaky and delicious crust.
- **Egg wash:** A beaten egg is used to give the crust a golden color during baking.

Step-by-Step Guide to Making Jamie Oliver's Meat Pie

1. Preparing the Filling

The filling is the heart of the meat pie. Here's how to prepare it:

1. **Chop the Vegetables:** Dice onions, carrots, and celery into small pieces. If using mushrooms, slice them as well.
2. **Cook the Vegetables:** In a large pan, heat olive oil over medium heat. Add the chopped vegetables and cook until softened, about 5-7 minutes.
3. **Add the Meat:** Increase the heat, add your choice of meat, and brown it well. This step is crucial for developing flavor.
4. **Season and Simmer:** Add herbs, salt, and pepper. Pour in stock to cover the meat and vegetables, and let the mixture simmer for about 30-40 minutes until the meat is tender and the flavors meld together.
5. **Thicken the Filling:** If the filling is too watery, you can mix a tablespoon of flour with a little water and stir it into the mixture to thicken it. Let it simmer for a few more minutes.

2. Making the Pastry

A flaky pastry is essential for a good meat pie. Here's a simple recipe to make shortcrust pastry:

1. **Combine Ingredients:** In a mixing bowl, combine 250g of all-purpose flour with 125g of cold, cubed butter. Use your fingers to rub the butter into the flour until it resembles breadcrumbs.
2. **Add Water:** Gradually add cold water (about 4-5 tablespoons) until the mixture comes together to form a dough.
3. **Chill the Dough:** Wrap the dough in plastic wrap and refrigerate for at least 30 minutes. This helps to relax the gluten, making the pastry easier to roll out.

3. Assembling the Pie

Once your filling and pastry are ready, it's time to assemble the pie:

1. **Preheat the Oven:** Preheat your oven to 220°C (425°F).
2. **Roll Out the Pastry:** On a floured surface, roll out two-thirds of the pastry to line your pie dish. Make sure it's large enough to cover the base and sides.
3. **Fill the Pie:** Spoon the meat filling into the pastry-lined dish, ensuring it's evenly distributed.
4. **Top with Pastry:** Roll out the remaining pastry to cover the top of the pie. Trim any excess

pastry and crimp the edges to seal.

5. **Make Slits:** Cut a few slits in the top of the pastry to allow steam to escape during baking.
6. **Apply Egg Wash:** Brush the top of the pastry with a beaten egg to give it a golden finish.

4. Baking the Meat Pie

The baking process is crucial for achieving a crispy crust and a well-cooked filling:

1. **Bake:** Place the assembled pie in the preheated oven and bake for 25-30 minutes or until the pastry is golden brown and crisp.
2. **Check for Doneness:** If the pie is browning too quickly, you can cover it with foil for the last 10 minutes of baking.
3. **Let it Rest:** Once baked, allow the pie to cool slightly before serving. This helps the filling set and makes it easier to slice.
